

Over 2.8 million New Jerseyans have already signed up for the Do Not Call Program (representing approximately two out of every three residential phone lines in the state). The program has been a resounding success. We have had an almost 100 percent drop in unwanted sales calls which gives our family countless hours of uninterrupted time together. Most likely due to its success, the law is under a coordinated attack from telemarketers who want the ability to call people despite the fact they have already signed up to stop telemarketing sales calls. Please do not jeopardise a success story and our families private time.
